CRC 334 Pharm \_\_\_\_\_

Problems noted by student:

Problems/assessment noted by faculty:

Recommendations (check all that apply):

- Reduce / eliminate obligations to get more study time
- Improve quality of study time (reduce distractions, use correct time of day)
- Compare notes with another student to make sure there is nothing missing in your notes
- Review notes, prepare for tests with a study group
- Practice making up and answering test questions with another student or group
- Make-up note cards/flash cards to test knowledge
- Re-write notes in outline format to learn/organize
- Read all sources and include graphics, illustrations, etc.
- Work sample problems to learn / apply formulas
- Include units of measure when working problems – be careful with math
- Use chapter summary to check knowledge of chapter
- Review / answer sample questions at end of chapters
- Other: \_\_\_\_\_
